16:01:58 Cool. We are now live on Facebook so Hello.

16:02:12 Hi.

16:02:03 Janet and Shelby welcome, lots of new faces this week which is nice to see you all. My name is Remy I am part of Team and the.

16:02:14 We will get started in a minute.

16:02:16 As you come on please mute your microphones that'd be amazing.

16:02:24 And normally when we're working, I do ask you to turn your cameras off.

16:02:30 But if you don't want to you want to keep on that's fine, but just sometimes distractions, so it's up to you.

16:02:37 So again, my name is Remy I'm part of Team and VM one of the happiness engineers at member volt. I'm also a small business owner myself. So I combine my work around member Bart with my own business and I use member vote every day to grow my business so

16:02:55 I have courses and programs and workshops and trainings and stuff that I, I do, I'm a business coach in the tech coach so I use member vote every day for that.

16:03:05 And I also build membership sites for clients as well so that's kind of what I do. So part of why I'm doing these co working Sessions is because I am also a small business owner, just like you and I use the site just like you.

16:03:20 And I'm really good with the strategy side of stuff. So, if you, if you have any questions during the session, please do pop them into the chat, and I will try and support you and help you in the chat and try and keep your microphones off if we can, and

16:03:37 I'm going to try not to speak too much to distract you. But sometimes I might do a screen share and walk somebody through that example.

16:03:45 If that happens, feel free to meet me and carry on working. So I'm going to interrupt the halfway mark to let you guys know that you know we're halfway through, and then five minutes before the end.

16:03:58 I'm going to come back on and get an update from you. So the first thing that I need you guys to all do, is to jump into the chat and write down what you're going to be working on in this next hour so set your intentions of what you're going to be working

16:04:14 on for the next hour.

16:04:16 Some people like to work on integration like integrating their email or their PayPal some people want to work on their products, create a new course or create a new membership.

16:04:27 Let me know what you're intending to work on today and let's set that intention right now.

16:04:33 And then at the end we're going to review and see how much work, we have all got them.

16:04:41 So I'm just going to head into the chat, nice to see you again Baba.

16:05:35 Mama says she's hooked to the sessions, that's nice.

16:05:39 Hannah is working on repurpose in a video series as a freebie for joining my calls waitlist. Amazing, amazing way to use member well.

16:05:48 Sarah wants to start sketching out a new product that she's creating.

16:05:51 I have two kids running around too so we'll see how far we go yeah I should say, there might be in an intruder in the form of a seven year old child but I've, I've reached her not to come in but children go rogue sometimes so I feel you Sarah and Adrianna,

16:06:09 I would like to get more clarification about the question I asked in the group with hopes of starting my outlines of my member about mini course. Sure, and Brianna please do post your question here in the chat and I will try and help you with that.

16:06:22 Alternatively guys if you have any questions feel free to message the team at Hello at member volt dot CEO we are there to help you so please if you are stuck with something, do reach out by email.

16:06:41 Executive executives working on integrating amazing.

16:06:45 Janet wants integrate email. Amazing.

16:06:49 ENIM you to remember about and I'm confused by drip days and what they mean. Okay, I'll explain that in a minute in the chat to you and I'll drop you really handy link that might help you as well.

16:07:00 Executives integrate integrated with Active Campaign.

16:07:03 Corey says I'm just here to stalk everyone to learn a few things.

16:07:07 Hoping to untangle the mess I've created. Hey, let's let's tackle one problem at a time curry just drop your questions into the chat and I'm here to help you guys right so everyone is also question which I'm going to go into in a minute.

16:07:21 So I'm going to silence myself now and what we're going to do is we're going to do a little power sprint of work so I want you to put your heads down, not down, not on a motorbike but get cracking working on your member volts, until half past so we can

16:07:35 do 20 minute like sprint of just focusing and work and then I am going to interrupt you at the halfway mark to get you to stop and have a little update and then we're going to refocus and then we're gonna go in again for another 20 minutes sprint.

16:07:51 So remember, ask questions in the chat, and I will be in the chat helping you guys as much as I can. All right, let's go.

16:32:06 Alrighty, we are halfway guys.

16:32:11 So I'm gonna ask you guys to stop for a minute.

16:32:12 Hello, Rachel Nice to see you again going to ask you guys to stop for like five minutes will say to actually take a break from just focus in on that thing.

16:32:20 gonna ask you guys to stop for like five minutes will say to actually take a break from just focusing on that thing. And if you need to get a drink of water, or have a bathroom break restroom break whatever.

16:32:30 And then do that, I'm just gonna stop for five minutes. I kind of use the Pompadour a method Do you guys know about Palmer Dora. Yeah. Thumbs up for Rachel.

16:32:38 And there is.

16:32:40 I find I'm really more productive when I really focus for like a short period of time 20-25 minutes, and then like stop. And, you know, walk away from the computer do something different and then come back and it kind of trains your brain to refocus so

16:32:55 I'm stopping. And I hope that you guys will stop for a few minutes, and let's use this opportunity actually if you want to because it's quite a few of you here and sometimes you guys leave before I get to this bit.

16:33:08 But and while we're having a little break if you want to pop into the chat, your MV, your link. So mine is Remy a digital dot VIP member vault. com that address if you want to drop yours into the chat, that'd be really helpful because I can copy that

16:33:24 out and then I'll share that into the group when I post all the replay information so that you guys get a little shout out and people can come and check out your member vault accounts and see what you guys are up to.

16:33:38 And it doesn't matter if you haven't got much stuff yet, it's worth sharing.

16:33:41 Look at those beautiful links coming in. So we've got Rachel's got Isabel's Shelby Hannah's Corey says newbie Where do I find that, and it's your account name.

16:33:54 Curry the one that you set up.

16:33:57 It might be your name it might be the name of your business.

16:34:00 It's normally the place that you log into.

16:34:04 So if you open a member of our email with your signup details, your details should be in there.

16:34:11 Let me know if you can't find it.

16:34:20 The money for them.

16:34:25 Brilliant. I Briana all Sarah Don't be nervous is fine, super nervous to share her link, how do I change it.

16:34:47 Baby are having problems setting up custom domain okay you definitely need send us an email.

16:34:54 Hello at member vote dot CEO and sin way we can resolve that for you because we need all your details.

16:35:00 And, and fantastic superhero Katrina, or era will sort that out for you.

16:35:07 Not a problem.

16:35:10 And just a reminder, particularly for those guys watching in the group as well and for you guys here but yet do. If you're stuck with something please don't suffer in silence.

16:35:18 We are here to help you. We want to help you. So just send us an email is Hello at member.volt@dot.ceo I will drop the link in the chat.

16:35:28 And I'm never regretted asking you all to pop these links and because I'm gonna have to scroll all the way back up to find the other questions.

16:35:36 But it's fine I will find them oh Rachel's gone off to have a cup of Yorkshire tea, lovely

16:35:44 man is using the branded short link for mine that's absolutely fine. Perfect.

16:35:48 mama structures in Thank you.

16:35:54 And Janice drop tears in thank you so much guys, that is magical. Um, so, Xavier I'm just going to answer your question really quickly before we start, we got like another four minutes before we start, and you ask the question about strategy and what

16:36:09 I would do if I was to, if I wanted to kind of boost the numbers in my account get some more subscribers.

16:36:17 Using member vote so my, my simplest strategy would really be to create a some sort of lead magnet or freebie that is useful to my audience right so i would create something that is of value to small business owners because they are my ideal clients,

16:36:36 and even tackling the problem that I sold or given them a quick win, and I create a really juicy enticing lead magnet, and I would put it into my member vote so I've got like a free resource library area thing, and I would put it in there.

16:36:52 And then what I would do is I would use that member vote link and I'd also get camera make some nice graphics make it look really cool and funky. And then I would use that link, and I would share that on on my social media I would share on my Facebook

16:37:04 my Instagram my LinkedIn and let people know that I have this free thing that people can come and get to drive the traffic to my member vote to get them to login of their name and their email, and that's for two reasons one I get to build my email list

16:37:18 because I'm capturing their, their email list but to when you drive people into your member vote for the freebie for the free thing that they're coming for member is set up in the in this beautiful way, where they can see all of your other products around

16:37:35 them okay so it's kind of like a really soft sell or what member member boat likes to call a binge and buy system so you're bringing them into the ecosystem to get something for free, but whilst they're there they go oh exactly is doing this call so OXAV

16:37:45 is selling this thing right over here, and what it's doing is continuously kind of reinforcing to them what it is you do and the things that they can buy from you remember about cleverly cleverly cleverly cleverly is the word I want.

16:38:08 And remember about cleverly has a way of tracking people so once they are inside, not in a bad way, just by using cookies but once they are logged in to get your free thing that you're giving a lead magnet opt in.

16:38:21 We're able to track them and where they go around your site so if they're clicking on things that they haven't yet bought. You can get alerts you know, to let you know when somebody is a hot lead or a warm lead.

16:38:35 Say that you know that they are interested in this thing, and but they just not bought it yet and then this gives you the opportunity as the account holder holder to either automate an email or send a personal email to that person and invite them to have

16:38:47 a conversation about what they've checked out or give them a discount code to entice them to buy right. So that would be how I would very quickly that would be a simple strategy that I would use would be to create create that shiny object that they want

16:39:02 and put that into my account. And then I would share that everywhere, not just on my social media I would put it on my website, I would put it on my blogs or at the bottom of my blogs I would put that in my email signature, or write emails to my list

16:39:16 and really drive traffic and get eyes on this, this free thing that you are given and that is a really nice and simple way to use member well and a way to drive traffic let me know if that helps.

16:39:27 Xavier.

16:39:32 Okay, somebody else doesn't know how else to find that URL I'm gonna, I'm gonna I'm gonna drop something in the chat for you guys into sex.

16:39:40 Alright so we got 20 minutes left, so we're gonna we're going to refocus.

16:39:46 And we're going to do like a, we're going to do spring 20 minutes session of working.

16:39:50 And we are going to just try and crack on and do as much as we can. In the next 20 minutes and I'm going to continue to answer all of your lovely gorgeous messages as quickly as I can.
