the Symbolic Hebrew sources!

Introduction Ancient Hebrew Symbols

Learn About the Ancient Symbols

We call our Ancient Hebrew Alphabet book *The Early Semitic Pictographic Alphabet*. The word **Semitic** means, the language comes from Noah's son Shem. **Pictographic** means the symbols are in the earliest picture form, kind of like Egyptian, which was later turned into the forms of the Hebrew Letters used to keep the records from Moses onward.

We have added our original research to this book through the photographs, and the Biblical House of Israel stories which are mentioned on each page.
